SUMMARY

Final-year B.Tech IT student at IIMT College with a robust foundation in Machine Learning and Python Development, complemented by practical experience across web technologies. Actively explore and implement advanced AI tools and large language models to develop innovative solutions. Known for analytical thinking and a strategic approach to problem-solving, committed to delivering high-quality, impactful technology. Eager to contribute to challenging roles in AI/ML or full-stack development.

EXPERIENCE

Python Programming Intern May 2025 – Jun 2025
InternPe

Build a foundational Python programming and problem-solving skills during a one-month internship at InternPe.

AI Web Developer Jul 2026 – Aug 2026
Inamigos

Built an NGO donation platform and replicated the Inamigos website, demonstrating full-stack development skills.

PROJECTS

Personal Portfolio Website AI · React.js · Python

Built a personal portfolio website to effectively showcase skills, projects, and contact information.

Library Management System Python · MySQL

Built a system using Python and MySQL in which library can be managed such as adding a book, issue the book to the student, student details who issue the book, etc.

Human Emotion Recognition System Python · AI/ML

Designed a system where a person can see their emotions that which facial expression he/she is making.

Diabetes Prediction Python

Build a system or webpage where a user can enter the data you have and it will give the predicted output that you have diabetes or not.

Rock and Stone Prediction with Sonar Python

Build a system which collects data and detects rock and stone with the help of sonar.

Fake News Prediction Python

Building a webpage where a user can find whether the news is fake or real.

EDUCATION

B.Tech, Computer Science and Engineering (IT) 2023 – Present
IIMT College of Engineering College, AKTU · CGPA 6.64

Class XII, CBSE 2022 – 2023
Army Public School, Sardar Patel Marg, Lucknow · CGPA 71.6%

Class X, CBSE 2020 – 2021
Army Public School, Sardar Patel Marg, Lucknow · CGPA 91.4%

SKILLS

Python · C++ · Java · Machine Learning · Neural Networks · Pandas · NumPy · TensorFlow · HTML · CSS · JavaScript · MySQL · Linux · Communication · Collaboration · Good Listening · Observation · Problem Solving · Pressure Handling · Adaptive Nature
